

## Bright Lights Big City: Geography Knowledge Organiser

Our Capital City  
London is the capital city  
of England.

Human and Physical Features  
London has many famous human  
features visited by tourists.

London Eye

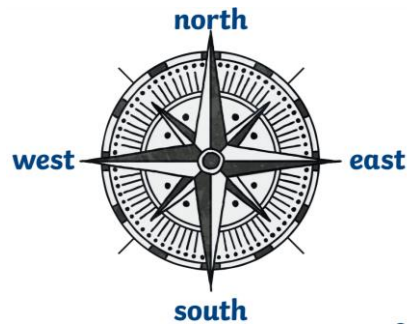

Buckingham Palace

The Shard

The River Thames is a physical  
feature. It runs through London.  
Many people use the river to  
travel using boats.

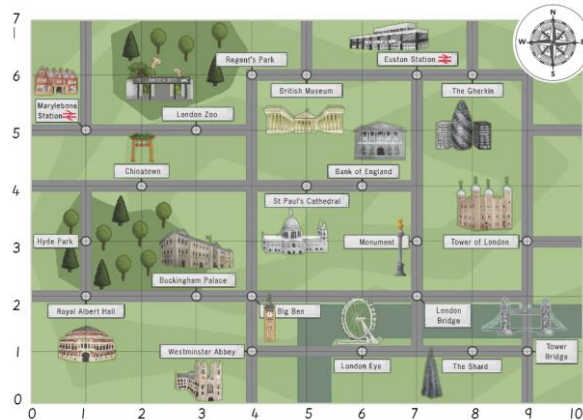

### Compass Points

A compass is a map tool for finding directions.

There are four main compass points.

### Grid References

A grid of squares helps to locate a place, this is called a grid reference. We can read the coordinates to find the famous feature.

London Eye  
(6,1)

### Glossary

**Capital City**

The head of a country and is where the Government is

**Human Feature**

A man-made feature - building, bridge

**Physical Feature**
